Business Roundtable launched **Climate RESOLVE** – Responsible Environmental Steps, Opportunities to Lead by Voluntary Efforts – to mobilize the resources and expertise of Business Roundtable member companies behind the goal of enhanced voluntary action to reduce the greenhouse gas (GHG) intensity of the U.S. economy. Our CEOs believe that motivated, forward-looking companies working in partnership with government can find many practical, cost-effective opportunities to reduce, avoid, offset or sequester GHG emissions – without the serious economic disruption caused by mandatory GHG controls.
